About Junglee Games

With over 140 million users, Junglee Games is a leader in the online skill gaming space. Founded in San Francisco in 2012 and part of the Flutter Entertainment Group, we are revolutionizing how people play games. Our notable games include Howzat, Junglee Rummy, and Junglee Poker.

Our team comprises over 1000 talented individuals who have worked on internationally acclaimed AAA titles like Transformers and Star Wars: The Old Republic and contributed to Hollywood hits such as Avatar. Junglee's mission is to build entertainment for millions of people around the world and connect them through games.

Junglee Games is not just a gaming company but a blend of innovation, data science, cutting-edge tech, and, most importantly, a values-driven culture that is creating the next set of conscious leaders.

Job Overview

We are looking for a passionate and self-motivated **AI Automation Intern** to join our team at Junglee Games. This role offers an exciting opportunity to **combine software testing, automation engineering, and Generative AI**, helping shape the future of quality engineering at scale.

Job Location

- Gurgaon/Bangalore (basis business requirements)

Key Responsibilities

- Document test plans, test results, and help improve overall test coverage.
- Assist in using GenAI-powered assistants for **test case generation**, **test plan creation**, and **automation scripts**.
- Write and maintain **UI test scripts** using tools like **Selenium**, **Playwright**, or **Appium**.
- Create and execute **API tests** using **Postman**, **RestAssured**, or similar tools.
- Support integration of **Large Language Models (LLMs)** in QE workflows using prompt engineering and RAG pipelines.
- Help set up test pipelines and run test suites via **CI tools** like **Jenkins**.
- Collaborate with Dev and Product teams to plan test efforts, triage bugs, and own overall testing activity.
- Create automation scripts, adopt AI assistant usage.
- Support the development of test frameworks and reusable libraries.

Qualifications & Skills Required

- Currently pursuing a degree in **Computer Science / IT/ AI** or a related field from the 2026 graduating batch.
- Good understanding of **Python**, **Java**, or other scripting languages.
- Basic knowledge of **software testing**, **QA practices**, or **test automation tools** (e.g., Selenium, Postman, etc).
- Interest or experience in **GenAI**, **LLMs**, or NLP tools.
- Familiarity with **REST APIs**, **JSON**, and **CI tools** (Jenkins, GitHub Actions) is a plus.
- Strong problem-solving mindset and a willingness to learn new technologies.

Be a part of Jungleee Games to:

- **Value Customers & Data** - Prioritize customers, use data-driven decisions, master KPIs, and leverage ideation and A/B testing to drive impactful outcomes.
- **Inspire Extreme Ownership** - We embrace ownership, collaborate effectively, and take pride in every detail to ensure every game becomes a smashing success.

- **Lead with Love** - We reject micromanagement and fear, fostering open dialogue, mutual growth, and a fearless yet responsible work ethic.
- **Embrace change** - Change drives progress and our strength lies in adapting swiftly and recognizing when to evolve to stay ahead.
- **Play the Big Game** - We think big, challenge norms, and innovate boldly, driving impactful results through fresh ideas and inventive problem-solving.
- Avail a **comprehensive benefits package** that includes paid gift coupons, fitness plans, gadget allowances, fuel costs, family healthcare, and much more.

Discover What Our Campus Hires Have to Say About Us:

"My time as an intern at Junglelee Games has been an amazing journey. I've learned so much and grown both technically and personally, all thanks to the incredibly kind and supportive people around me. Everyone's always ready to help, and the environment here is just so positive and full of opportunities to grow. It's been a genuinely fun and fulfilling experience."

- **Vishruth Reddy**

"My internship at Junglelee Games has been a great journey of learning and growth. The team was approachable and supportive from day one, and every task brought a meaningful challenge. While the tech stack felt a little overwhelming at first, the team's guidance helped me grow more confident in my role. I had the freedom to explore, with support always close by. The culture encouraged curiosity, ownership, and continuous learning, which made the experience truly fulfilling. I'm genuinely grateful for the opportunity and everything I've learned along the way."

- **Kushagra Gupta**

"The work culture at Junglelee is amazing—everyone is supportive and helpful, creating an environment where you can truly grow. As a fresher, I've received incredible exposure, which has upskilled me, and I've had the opportunity to learn, implement, and contribute to meaningful projects. Plus, it's a fun place to be, with a strong sense of team spirit."

- **Anjali Singh**
